Our Journey Together Today

~~Introduction~~

High Level - What this does

Low Level - Python Code

Internal Use

External Sales

Questions / Comments / Criticisms

High level:

- Inoreader.com
- Craigslist.com

Aggregation (one place) + Automation (machine only, humans need not apply)

Low level:

- RSS feed format
- Running code
  - No arguments = ./grabber.py = enumeration into everything.json
  - Arguments = ./grabber.py everything.jso && cat out.xml = XML generation into out.xml
- Five states for demo

Super Duper Low level:

- Actual code
  - vim grabber.py
- 251 loc - object-oriented Python (mostly)
